

Industrial Manager

Central Office - Regina, SK

The Assessment Services Division of the Saskatchewan Assessment Management Agency (SAMA) is currently seeking an Industrial Manager to provide leadership, direction, and support to the Industrial Assessment team.

Using strong leadership and interpersonal skills, the successful candidate will build and maintain positive relationships with internal and external clients. You will have proven supervisory/management experience to draw upon to coach and guide your team to meet its objectives. You will be experienced with the classification and coding systems used for the tabulation and licensing of all wells and have knowledge of current mining processes, oil and gas well operations and recovery systems, construction techniques used in heavy industrial buildings and the models, formulas, and rules in determining assessments of each.

To be the successful candidate, you will be eligible for registration as an Accredited Assessment Appraiser of Saskatchewan (AAAS) by the Saskatchewan Assessment Appraisers' Association (SAAA), complemented with a related university degree or Certificate in Real Property Assessment from the University of British Columbia or its equivalent.

Competition #: 08-BR30
Closing Date: August 08, 2008

If this opportunity appeals to you, submit your cover letter and resume quoting the competition number to:
