**Director, Technical Standards**

Central Office – Regina

The Saskatchewan Assessment Management Agency (SAMA) is currently recruiting for a Director, Technical Standards for our Technical Standards and Policy Division in Central Office, Regina, SK.

Reporting to the Managing Director, Technical Standards and Policy, you will be responsible for planning, organizing, staffing, directing, and controlling the development and communication of technical assessment standards and guidelines used in the assessment of properties and businesses in Saskatchewan.

You will have superior leadership abilities in organizing and leading work groups and in managing change. You have the ability to work collaboratively with various levels within the Agency and with client and stakeholder groups. As well, you will possess excellent written and oral communication and presentation skills.

The successful candidate will have a university degree in a related discipline or an equivalent combination of training and experience. You will have previous experience in a management role in the assessment industry along with knowledge of assessment legislation and procedures. You will be licensed to undertake valuations in Saskatchewan and will be registered or eligible for registration as an Accredited Assessment Appraiser of Saskatchewan (AAAS) through the Saskatchewan Assessment Appraisers' Association and you will hold a professional appraisal/assessment designation (AACI or CAE).

**Competition Number: 08-BR49**

**Closing Date: October 31, 2008**
